

~ WELCOME~ MRS. MAIN  
Teacher & Scientist

We were honored to have a visit from Mrs. Sindy Main, Freeport Junior High Science Teacher/Antarctica Scientist, on December 18th. Mrs. Main brought pictures of her adventure to Antarctica. She was there to perform scientific experiments. Not only did we learn about Antarctica, but we also saw pictures from her trip to Venice, Austria and Cape Town, South Africa. Mrs. Main also brought the flag, signed by fellow scientists. This flag was flown on her tent in Antarctica! She also brought some other souvenirs for us to see. She gave our class a rock sample from Antarctica. We gave Mrs. Main a stuffed penguin and cards as a thank you for sharing her trip with us.

*This flag, made by Mrs. Main's friend,  
flew at her tent in Antarctica.  
It is signed by the scientists involved in the  
expedition.*

MRS. MAIN

**OUR AMERICAN SYMBOLS**

In Government class, we learned about our American Symbols. The class made American symbols out of aluminum foil, paper, salt dough, sticks, and felt. The symbols that were made were: The American Flag, the Gateway Arch, Statue of Liberty, Lincoln Memorial, Liberty Bell and Washington Monument. Everyone worked hard. The class labeled each symbol then they had to show the class their project and tell what their symbol was and information about

Christine— model—Statue of Liberty	Michael— powerpoint--Mount Rushmore
Derek— model—Gateway Arch	Katie—powerpoint—Bald Eagle
Damarious— model—Liberty Bell	Kim (not shown)—American Flag
Kenny (not shown)—Lincoln Memorial	
Noell (not shown)—Crazy Horse Monument	
Damario (not shown)- Washington Monument
